Q 1

Q 2

Q2. Star Pattern I

Solved

 **Stuck somewhere?**
Ask for help from a TA and get it resolved.

Get help from TA.

Problem Description

Write a program to input an integer **N** from user and print hollow diamond star pattern series of N lines.
See example for clarifications over the pattern.

Problem Constraints

1 <= N <= 1000

Input Format

First line is an integer **N**

Output Format

N lines conatining only char '*' as per the question.

Example Input

Input 1:
4

Input 2:
6

Example Output

Output 1:

*** ***
** **
* *
* *
** **
*** ***

Output 2:

**** ****
*** ***
** **
* *
* *
** **
*** ***
**** ****

Java 8 (Array Support)
