Q3. Subarrays with Bitwise OR 1

Stuck somewhere?

Ask for help from a TA and get it resolved.

Get help from TA.

Problem Description

Given an array **B** of length **A** with elements 1 or 0. Find the number of subarrays with bitwise OR **1**.

Problem Constraints

1 <= A <= 10⁵

Input Format

The first argument is a single integer A.
The second argument is an integer array B.

Output Format

Return the number of subarrays with bitwise array 1.

Example Input

Input 1:
A = 3
B = [1, 0, 1]

Input 2:
A = 2
B = [1, 0]

Example Output

Output 1:
5

Output2:
2

Example Explanation

Explanation 1:
The subarrays are :- [1], [0], [1], [1, 0], [0, 1], [1, 0, 1]
Except the subarray [0] all the other subarrays has a Bitwise OR = 1

Explanation 2:
The subarrays are :- [1], [0], [1, 0]
Except the subarray [0] all the other subarrays has a Bitwise OR = 1
