Q1

Q2

Q1. Time to equality

Solved

Stuck somewhere?

Ask for help from a TA and get it resolved.

Get help from TA.

Problem Description

Given an integer array **A** of size **N**. In one second, you can increase the value of one element by 1.

Find the **minimum** time in seconds to make all elements of the array equal.

Problem Constraints

1 <= N <= 1000000

1 <= A[i] <= 1000

Input Format

First argument is an integer array A.

Output Format

Return an integer denoting the minimum time to make all elements equal.

Example Input

A = [2, 4, 1, 3, 2]

Example Output

8

Example Explanation

We can change the array A = [4, 4, 4, 4, 4]. The time required will be 8 seconds.
